## The 10<sup>th</sup> Anniversary

"One can probably overplay the mysterious workings of that strung out spirit of the age, the zeitgeist. But occasionally a book or a movie or a song comes along whose influence springs up simultaneously in all kinds of unexpected places. *Back in the Days* is that book."

—*The New York Times*

Upon its first publication in 2001, *Back in the Days* became an instant classic. And it has endured as a seminal and iconic title, inspiring a decade-long, international revival in old-school hip hop style, music, and culture.

Now available for the first time in a limited-printing, tenth-anniversary-edition, *Back in the Days: Remix* includes a new edit with over 30 never-before-published photographs, a new essay, an interview with photographer Jamel Shabazz, and deluxe cloth binding.
